Texas Eastern Transmission, LP; Notice of Application and Establishing Intervention Deadline

Take notice that on June 17, 2021, Texas Eastern Transmission, LP (Texas Eastern), 5400 Westheimer Court, Houston, Texas 77056, filed an application under sections 7(b) and 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations for its proposed Holbrook Compressor Units Replacement Project (Project). Texas Eastern requests authorization to abandon twelve existing reciprocating compressor units at its Holbrook Compressor Station (Station) located in Richhill Township, Greene County, Pennsylvania, and replace them with two new, more efficient compressor units. Texas Eastern states that the Project will ensure the continued safe and reliable operation of the Station, at its certificated capacity, while meeting all current air emissions requirements, by replacing the existing reciprocating units at the Station. Texas Eastern states that the Project will result in a substantially equivalent designed horsepower at the Holbrook Compressor Station, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
